

Mazda has been named the most reliable motor manufacturer

The Japanese auto giant Mazda is once again hitting headlines for its superb manufacturing and technology. This time, Mazda has topped a poll organized by the insurance company Warranty Direct, as the most reliable motor manufacturer in the UK.

Based on data gathered from millions of pounds worth of claims handled by Warranty Direct every year, they create a Reliability Index (RI), which brings you the most comprehensive overview of cars on the road today. This RI gives an independent comparison of frequency of failure across the 55,000 vehicles Warranty Direct insures.

These rankings are made on the basis of the number of breakdowns and the average cost of repair. A Warranty Direct spokesperson said that problems with Mazda cars were minimal and the “cars aged well”. “Infrequent garage visits, quick repair time and reasonable bills have made Mazda the most reliable manufacturer on our RI,” he said.

Mazda has always boasted of its incredible make that not only gives the driver great performance but also a peaceful driving experience. Their confidence in the make has even initiated Mazda Corporation to recently launch an extended warranty on Mazda3 and Mazda6 models to 5 years, for unlimited mileage.

“Reliability and cost effective maintenance is often one of the prime factors which lead a buyer to make his decision. With a Mazda we are glad that we are always offering the best and we ensure that the buyer doesn’t have to spend a great deal in maintaining it. Warranty Direct’s analysis further reinstates our stand,” says S Kasthuriengen, General Manager of Towell Auto Centre, who are the national dealers for Mazda cars in Oman.

Towell Auto Centre provides quality service to all models of Mazda and makes owning a Mazda extra pleasant with its efficient after sales service and quick response time.
