

## Coming soon Mazda CX-9: Mazda's first SUV offering to Oman

The all-new Mazda CX-9 is first of the Zoom-Zoom family's 7-seater sports crossover SUV to enter the sultanate. The Mazda CX-9 boasts of everything you would ever desire in a sports car and everything you would ever need in an SUV.

Not quite as chunky in appearance as the usual perception of an SUV, the Mazda CX-9 boasts of more muscular features and an angular nose. Its sedan-like honeycomb grille adds to its atypical appeal and makes the Mazda CX-9 stand out from the rest in its category. 20-inch alloy wheels come in this machine along with features like high-intensity-discharge (HID) headlights.

On board this stunner is comfort and roominess in splendid abundance. The three-row, 7-seater has front bucket seats and a 60/40 split second row, with a backrest that can recline or fold flat. The third row splits 50/50 and features easy adjustments to make more room for leg space and cargo. Bose stereo with surround sound, keyless entry, power windows and cruise control are standard features on a Mazda CX-9. Add to this the refined chrome accents and dimmed windows for the final touches of a pure feel of opulence.

This luxurious automobile is powered by a new 275 bhp 3.7 litre, V6 engine that drives a six-speed Activematic transmission. While the urban surroundings can hardly get enough of the stylish Mazda CX-9, the available all-wheel-drive option makes this commanding vehicle a joy even when you're setting out off road.

Mazda ensures that your ride, however hard you hit the pedal, is one in the arms of complete safety. All disc antilock brakes, side impact air bags, three-row side air curtains and an Electronic Stability System (ESS) with rollover mitigation technology, and traction control systems are standard safety features on the Mazda CX-9.
